Commission Denounces 'Criticism Not Based on Facts'

FLAYS 'GRAB BAG' POLICY

Also Attacks Idea Special Concessions Should Be Granted Favored Employers

COLUMBUS, Aug. 28.—The state industrial commission lashed out today at criticism not based on facts and defended its administration of the workmen's compensation fund as efficient as possible under existing conditions.

The commission said there were two impressions abroad in Ohio which have a tendency to undermine the stability of the fund: one, that the fund is a "grab bag" of miscellaneous concessions to favored employers; and two, that the fund is a "grab bag" of miscellaneous concessions to favored employers.

The commission said it was not a "grab bag" of miscellaneous concessions to favored employers. It said it was a fund that was administered efficiently and that it was not a "grab bag" of miscellaneous concessions to favored employers.

The - Marry-Go-Round BY HELEN ROWLAND

THE MEN YOU DIDN'T MARRY
If anything could make a woman perfectly contented with the man she did marry, it would be to meet a few of the men she almost married—and didn't.

Many a faithless author has turned out to be a blessing in disguise. And if you will only wait until you recover from the heart-ache or the pain in your vanity, and the years have done their fine work, you will find yourself shaking your own hand or patting your own back and congratulating yourself on your lucky escape.

Ah, where are the lovers of yesterday?

Do you remember that slender academy cadet in his glittering uniform, whom you worshipped in secret and glorified in bad verse? He is now the roly-poly little bay-windowed man with three chins and a pompous manner, who takes up the collection in church on Sunday.

And that countess young fellow with the lovely shock of wavy, golden hair and the long forelock who wrote such divine verse. Alas! He is now the tank, sallow, bald-headed fellow in goggles, who writes rhymes for Christmas cards and jingles for a popular tooth-paste.

And that handsome, dashing football hero, whose loveliness gave you a thrill that buttoned up the back? He, bum! That magnificent athletic figure is just "beefy" by this time; and he is merely a good-natured fat man with a moon face, a comfortable punch, a tireless wife and half a dozen kiddies.

Yes, and there was that perfect Beau Brummel, the honor man in his class at college, who danced so divinely and flattered you so by taking you to the prom. Can he be that wizened, dried up little man in the ill-fitting coat and baggy trousers, who teaches draughtsmanship at Junior's school? He can—and probably is.

And, last but not least, look at that swagger Wall Street broker, who drove you about in his Mercer racer and would have given you everything in the world you wanted. Where is he now? Selling insurance or second hand cars, perhaps, looking haggard and broken, but still trying to keep up a "front."

Perhaps the man you married isn't such a howling financial success, and his hair may be getting a little thin on top, and he isn't as romantic as a young and eager poet or as a glamorous football idol.

But just look around at some of your might-have-beens! It's a good cure for those moments of discontent and doubt—when a woman stops pitying herself, and is glad that, no matter how big the fish were, they "got away!"

SPORTSMEN RESCUE FISH AFTER FLOOD

By United Press
COSHOCOTON, O.—Coshocoton county sportsmen and Game Warden F. A. Bailey took steps to preserve wild game and fish which were menaced by devastating floods here recently.

Wild game has been driven to highways in the flooded areas for shelter and food. Motorists were requested to take precaution in driving to avoid running over game.

Fish left in lowlands by the receding waters were seized and placed in streams.

ACID IN KIDNEYS BRINGS OLD AGE

Those Sharp Pains, Nightly Rising And Swelling Of Lower Limbs Now Relieved By A New Medicine That Has Diuretic Action On Afflicted Kidneys.

Medical authorities agree that kidney disorders make us old before our time but there is a way to obtain blessed relief. A notable discovery has been made. It's called Indo-Vin, which is now being introduced to crowds daily here in Marion by the Indo-Vin Man, at Eckerd's Drug Store, 140 S. Main St. It was unknown in this city a few weeks ago, but today the people of Marion are using hundreds of bottles and it is helping many who had never been really helped before by ANY medicine.

HOW IT ACTS
Indo-Vin is taken shortly after meals and mixes with the food in one's stomach, flushing out quantities of impurities that may have become dammed up inside, causing headache, sharp pains and getting up at night. Cleansing out these impurities permits the kidneys to do their work properly and gives actual relief from bladder irritation and weakness, spots before the eyes, swelling of ankles and even rheumatic pain. Indo-Vin also has a great cleansing action upon the stomach, liver and bowels, thus it is beneficial to the system in general.

While Indo-Vin is being introduced in Marion every suffering person can take it at the small cost of only a few cents a day. So if kidneys are stagnant or similar disorders are ruining your life, it would certainly be a mistake not to try it.

The Indo-Vin Man is now at Eckerd's Drug Store, 140 S. Main St., here in Marion, daily meeting the public and introducing and explaining this new mixture of Nature's Medicines. Also being sold in all the nearby towns by every good druggist throughout this whole section.

Faulty Shoes

A WISER generation is giving more consideration to the feet. The modern measure for foot care mark a long step away from the unreasonable customs and neglect of the past.

In some countries women's traction depended largely upon the smallness of her feet. To attain this mark of beauty the feet of babies especially among the Orientals were kept bound during the period of development. But that day is past, thank goodness. Today the ideal foot is judged not by its diminutive size but by its grace, symmetry and freedom from corns, calluses, bunions, broken arches and other deformities.

Not only is the normal healthy foot attractive to the eye, but it has a decided influence on the general health. Too many look upon corns, calluses and bunions as trivial ailments. But when these disturbances are neglected they become painful, result in foot strain because of efforts to remove pressure from the sore places. All these symptoms cause nervousness and ill health.

A faulty structure of the foot, flat foot for example, and especially in the child, often causes bad posture. The result in a crooked body and frequently leads to pronounced physical disorders.

In most instances the underlying cause of foot illa can be traced to the wearing of improper footwear. Flat foot may be produced by tight, short shoes. There is no support for the inner border of the foot if pointed and high heeled shoes are worn all the time.

The foot is a complex and if left to itself an efficient mechanism. It is made up of many bones which are connected by numerous ligaments and muscles. This arrangement gives the foot freedom of motion. The foot possesses flexibility and strength sufficient to carry enormous weights. Unfortunately the perfectly planned architecture is often impaired by the wearing of improperly fitted shoes.

To prevent foot ills then make sure that your shoes are well fitted. There should be ample room for the movements of the toes. The shoe should be firm in the arch and provided with a low, broad heel. A broad, low shoe is advised for those persons who complain of corns.

If you live in the city and walk on hard pavement it is advisable to wear a shoe with a fairly heavy sole. This will lessen the shock which is produced by each step taken. Rubber heels and soles are often recommended for persons who for long hours stand at their work on hard floors.

To be properly cared for the feet should have rest as well as exercise. For tired aching and swollen feet relief may be obtained by frequent foot baths. A few tablespoons of epsom salts in a gallon of warm water will provide a beneficial and soothing bath for weary feet.

COUNTY TEACHERS READY FOR SPECIAL COURSES

Culture, Music and Athletic Departments Prepare for Work.

All athletic instruction is taken over by members of the school faculty who handle the special responsibility. No teachers are freed especially for the position of athletic instructor. The main job of the man who acts as athletic instructor is his regular classroom work with the physical education on his secondary consideration.

Teachers at the county schools who have been designated as athletic instructors for the coming year are R. C. Miller at Cambridge, A. B. Augenstein, principal, at Cleveland, Richard Foster at Green Camp, Eugene Hostettler at LaRue, Frank Furness at Morral, Paul Furness at Agosta, M. L. Barnhart at Pleasant, Paul Keller at Prospect, Leonard Fowler at Kirkpatrick, Merton Porter at Waldo, Fred Tipton at Meeker and Norman Somers at Martel.

Vocational agriculture is one of the outstanding special departments in the Marion county school system. Although the work is not given at all the schools, Marion county has one of the largest groups of vocational agriculture classes in the state.

The work covers both theoretical and practical phases of education. Students gain practical experience by carrying on projects on their home farms the year around. The vocational agriculture teachers are on the job 12 months out of the year and during the summer season they pay individual calls on their students and hold group discussions. The vocational agriculture work is maintained partly by the state and the state department has the decision in placing schools around the county.

Vocational agriculture classes are in charge at the following schools: LaRue, Prospect, E. B. Smith, LaRue, Burdette Hunter, Agosta and Green Camp, A. A. Wood, Morral and Grand Prairie, B. N. White, Pleasant, Milford School.

Home economics is a special department for the girls, is offered this year at LaRue and Prospect.

AUGUST 31st is the Deadline

Last chance of the year to get...

FREE COAL with the genuine ESTATE HEATROLA

If you're going to need a new heater this Fall don't fail to look into this opportunity. There are at least three reasons why it will pay you to place your order this month:

- (1) You'll be sure of getting the model you want—when you want it
- (2) You'll be protected against any price advance
- (3) You'll get a supply of coal FREE (500 to 2000 lbs., depending upon the model you select)

CASH ISN'T NECESSARY

Just a small deposit now will reserve your Heatrola at today's price. You can pay for your share of the coal. Regular payments do not start until the Heatrola is installed in your home (you set the date) and the Free Coal is in your bin.

There's only One Heatrola

Estate builds it—we sell it. For 15 years it has led in sales by a wide margin. And this year in celebration of the 15th Anniversary, beautiful new models and sensational new values are offered. All with the famous Intense Fire Air Duct, Ped-a-Lever Free Door, and other fuel saving labor saving features. Wide variety of models to choose from—a style for every home—a style for every taste, a price for every budget.

HURRY! If you can't get in to the store by August 31st, telephone and invite us to call at your home. WE MAKE THINGS HOT FOR YOU.

A Reward and a Responsibility

We have always believed that people stay loyal to those institutions which choose to remember that protecting one's good name is a **PUBLIC OBLIGATION**—a responsibility not to be taken lightly.

We have always acted on this theory, and today, more than ever before, we have found it practical and workable.

Our policy of "Keeping in Step with Progress" has continued through the last depression, and others before it.

Our Funeral Home is now Air Conditioned. We have installed the Strang Electric Air Conditioning and Comfort Cooling System. We now offer our air conditioned chapel and cool, comfortable reception rooms in which to meet friends and relatives.

The latest addition to our equipment is the "Arlington," our new Funeral Coach. With both side and rear entrances it eliminates confusion. Its modern lines and the rich simplicity of its interior finish lends dignity to the funeral service. This and our air conditioning is offered to the public without extra charge.

sorry

We didn't
mean to
SCARE
you!

Forgive us... this charming young lady didn't mean to frighten you. But we printed her picture so BIG that you thought your eyes were fooling you.

THIS is just our way of saying BIGNESS — of telling you that some things are just too big to miss!

It's our way of telling you about the thousands of values now being offered in Marion stores. It's our way of illustrating the BIG bargains you'll find—in "Back to School" needs for boys and girls—in ladies' coats and dresses and men's clothing and furnishings for fall and that Labor Day trip—in furniture, shoes and household needs for the fall season.

It's our way of calling to your attention the fact that wise buyers add comfort to convenience by shopping before they buy—in the Marion Star's big, meaty advertising pages.

And it's just our little way of pointing out another important fact: That your smile will be as big as the smile on the lady in this picture as you count the time, trouble and money saved—every day and all the year—when you read the ads regularly.
